

## High Grove Maintenance Schedule

**February-** we will continue to cut all dormant grasses and liriop. Mow, blow, edge, and weed eat on as needed basis. This will consist of: mowing all turf around the town homes and common areas, edging all turf that borders a concrete edge, and weed-eating around all obstacles and string trimming all bed edges. We will also finish limbing up trees that need it. Continue weed control practices which consist of picking all weeds that are larger than 4 inches and spraying the weeds that are smaller than 4 inches as needed. Pick up all trash and debris weekly. The second week of February we will spray pre-emergent.

**March, April** finish the cutting of all dormant grasses, liriop, and any perennials that need it. Mow, blow, edge, and weed-eat on as needed basis. Blow off all concrete sidewalks, drive-ways, and streets every week. Perform weed control practices on a weekly basis. Pick up all trash and debris weekly. Finish limbing up all trees.

**May-Oct.** spray the second round of pre-emergent in the second week of May. We will start to mow, blow, edge, and weed-eat all town home and common areas every week. In the second or third week of May, depending on how fast the growing season is we will start pruning all plant materials around the town homes and common areas. This will be about a 6 or 7 week process. The first 2 weeks we will prune both sides of the street the full length of Eveleigh. On week 3 we will prune the buildings on Graburn

and the buildings on Bickleigh that are directly behind the ones on Graburn. Week 4 we will start on the opposite side of Bickleigh pruning everything down to Dillworth. Finally we will start at Dillworth where we left off the previous week and will finish the rest of the street during weeks 5 and 6. The second week in June we will perform a fertilizing treatment. The crew will perform weed control practices every week. We will blow all drive-ways, sidewalks, and street every week. The second week in August we will perform another turf treatment. The last turf treatment will take place in early sept.

**Oct.** in this month the growing season slows and will go back to mowing, blow, edging, and weed eating to an as needed basis. Perform weed control as needed. Pick up trash and debris

**Nov.-Dec.** this period is the start of leaf season. We will primarily focus on leaf removal and pick-up every week. All other tasks will be performed as needed.
